About RepRisk

RepRisk is a global leader and pioneer in data science, specializing in premium ESG and business conduct risk research and quantitative solutions. Since 2006, RepRisk has been leveraging artificial intelligence and curated human analysis to translate big data into actionable business intelligence and risk metrics. With daily-updated data synthesized in 20 languages using a rules-based methodology, RepRisk systematically flags and monitors material ESG risks and violations of international standards that can have reputational, compliance, and financial impacts on a company.

Our flagship product, the RepRisk Platform, is the world's largest database of its kind, consisting of 100k+ public and private companies and 25k+ projects of all sizes, in every sector and market. Leading organizations around the world rely on RepRisk as their key due diligence solution to prevent and mitigate ESG and business conduct risks related to their operations, business relationships, and investments.

Job Description

As a RepRisk® Analyst you will analyze and enter news from NGOs, the internet, print and other media into the RepRisk® tool (www.reprisk.com). RepRisk® facilitates the identification and assessment of environmental, social and corporate governance issues which may present financial, reputational and ethical risks. It is used by investment professionals, financial institutions, supply chain managers, multinational corporations and compliance managers. The tool plays an integral role in increasing transparency and ensuring compliance with internal and international standards, thereby helping reduce risk exposure.

Responsibilities

- Identifying news related to environmental, social and corporate governance issues
- Assessing the corresponding RepRisk issues (<https://www.reprisk.com/our-approach#scope>) within the news
- Entering newly criticized companies, projects, etc. into the RepRisk® database
- Summarizing and scoring the incident according to our proprietary methodology

Candidate Profile

- You are fluent in Hindi or Danish, Dutch, Finnish, Norwegian or Swedish
- You have the equivalent to a native-level of English
- Reading proficiency in one additional RepRisk language would be an advantage: Chinese, Arabic, French, German, Italian, Japanese, Korean, Portuguese, Russian, Spanish. Please note: For RepRisk analysis purposes, you do not need spoken or written proficiency in these languages.
- You have excellent English writing skills, including strong analysis and editorial skills
- You have a strong interest in environmental, social or corporate governance issues
- You have a minimum of a Bachelor's degree. A background in journalism, international relations, environmental, social, or media sciences is a plus

Personal Attributes

- You are extremely reliable and meet the high-quality standards of a premium product
- You set high personal standards for performance
- You are self-motivated and have the ability to adapt quickly
- You drive for results and deliver on agreements
- You bring tasks to a successful conclusion

What We Offer

- An entrepreneurial, young work-environment with a motivated, international team
- Making a significant contribution to the field of sustainability
- A long-term employment opportunity at a growing global company
- Flexible working hours
- Dynamic work environment within an established company setting
