

RepRisk on WRDS on trial

Posted on [04/03/2016](#) by [IESE Library Staff](#)

The Library has **RepRisk on WRDS** on trial until October 19, 2016.

RepRisk is a leading business intelligence provider, specializing in environmental, social, and governance (ESG) risk analytics and metrics. Harnessing a proprietary, systematic framework that leverages cutting-edge technology and hands-on human intelligence in 15 languages, RepRisk curates and delivers dynamic risk information for an unlimited universe of companies. Since 2006, RepRisk has built and continues to grow the most comprehensive ESG risk database that serves as a due diligence, research, and monitoring tool in risk management, compliance, investment management, corporate benchmarking, and supplier risk. The database currently includes risk profiles for over 55,000 public and private companies, 14,000 projects, as well as for every sector and country in the world.

HIGHLIGHTS

- 55,000+ public and private companies, all countries, sectors
- 14,000+ project-level data, including mines, pipelines, etc.
