RepRisk Announces Milestone for its ESG Risk Platform
RepRisk Now Covers Over 50,000 Companies, Across All Sectors and Geographies

Zurich, Switzerland -- March 4, 2015 -- RepRisk, the leading provider of business intelligence on environmental, social and governance (ESG) risks, announced today that it now covers over 50,000 companies in its ESG Risk Platform. With this milestone, the RepRisk Platform is the industry’s most comprehensive ESG risk analysis and metrics database.

“This milestone signifies our commitment as a pioneer and leader in the ESG space – and we’re just getting started,” said Nicole Streuli-Fürst, Head of Operations and Research at RepRisk. “As we continue to screen, identify, analyze and quantify new risk information, our database continues to grow – and we plan to accelerate this growth in the future. Our goal has been, and continues to be, to set the standard in ESG risk quantification and we remain focused on our mission to offer the most dynamic and comprehensive ESG risk data available.”

RepRisk’s database, launched in 2006, includes risk profiles for over 50,000 public and private companies and 12,000 projects, across every sector and country in the world.

“We are extremely proud of this achievement,” said Alexandra Mihailescu Cichon, Head of Business Development and Marketing at RepRisk. “The size, scope and unique nature of our data provides risk management and compliance functions with a due diligence tool and early warning system for lending, underwriting and responsible investment, as well as an ESG risk monitoring and research resource for private equity, supply chain management and corporate benchmarking.”

About RepRisk
RepRisk is a leading business intelligence provider specializing in dynamic environmental, social and governance (ESG) risk analytics and metrics.

On a daily basis, RepRisk systematically screens big data from a broad range of open intelligence sources in 14 languages in order to identify, filter, analyze and quantify ESG risks (such as environmental
degradation, human rights abuses and corruption) related to companies, projects, sectors and countries. This external perspective provides valuable insight on whether a company’s policies, processes and commitments are consistently translating into performance.

Since 2006, RepRisk has built and continues to grow the most comprehensive ESG risk database that serves as a due diligence tool and early warning system in risk management, compliance, investment management, corporate benchmarking and supplier risk. The database currently includes risk profiles for over 50,000 public and private companies and 12,000 projects as well as for every sector and country in the world.

Headquartered in Zurich, Switzerland, RepRisk serves clients worldwide including global banks, insurance companies, investment managers, and corporates, helping them to manage and mitigate ESG and reputational risks in day-to-day business.

RepRisk provides the transparency needed to enable better, more informed decisions. For more information, please visit www.reprisk.com or follow us on Twitter.
