RepRisk announces new data partnership with Bureau van Dijk

Blended datasets create superior value for clients

RepRisk, the leading provider of dynamic business intelligence on environmental, social, and governance (ESG) risks, and Bureau van Dijk, the world-leading publisher of company information, are pleased to announce a new data partnership.

RepRisk provides daily-updated risk analytics and metrics related to companies, projects, sectors, and countries. It has built and continues to grow the most comprehensive ESG risk database that serves corporates and financial institutions worldwide as a due diligence, research, and monitoring tool in risk management, compliance, investment management, corporate benchmarking, and supplier risk.

Bureau van Dijk is a leading provider of company information, including detailed financials, corporate ownership structures, directors and managers, and mergers and acquisitions data. Its flagship Orbis database holds material on more than 200 million private and public companies worldwide.

“In today’s business climate, there is a growing demand for information on environmental, social and governance reputational risk,” said Louise Green, Bureau van Dijk’s Global Marketing Director. “RepRisk is an industry leader in the field of dynamic ESG risk analytics and metrics whose data complements our own extensive combination of financial, compliance, sanctions and risk-related information and gives our users the ability to make better-informed business decisions with a greater degree of certainty.”

“RepRisk is proud that its ESG risk analytics and metrics are integrated into the Orbis database,” states Alexandra Mihailescu Cichon, Head of Sales and Marketing at RepRisk. “In turn, extracts of Bureau van Dijk’s company ownership information enrich our existing dataset in the RepRisk ESG Risk Platform, adding clarity to our services for clients.”
