RepRisk Company Reports

RepRisk Company Reports provide an in-depth look at the environmental, social, and governance (ESG) risk exposure of an individual company through a combination of quantitative data – our proprietary risk analytics and metrics – and qualitative research that covers ten years of history.

A historical view of the ESG risk exposure

RepRisk Company Reports are designed for users specifically interested in one or a few companies:

- CSR and Sustainability teams
- Communications and PR professionals
- Financial and M&A advisors
- Individual investors
- Law firms
- Management consultants
- Academics and students
- NGOs

The RepRisk Company Reports allows you to:

- **Address the business imperative of ESG:** Provides an in-depth ESG risk assessment, helping you identify the Issues, Topics, UNGC Principles, Cases, and more, that drive risk for a company
- **See the big picture:** Delivers historical insight through a ten-year data history, while also highlighting the key areas of risk exposure from the last two years
- **Have timely, actionable intelligence at your fingertips:** Dynamically generated upon purchase to include the latest information from our ESG Risk Platform – the world’s most comprehensive database on ESG risks

RepRisk analytics help you identify the key ESG challenges and hot spots for a company

This RepRisk Company Report is a compilation of all the RepRisk research and analytics available for an individual company. Each Company Report includes two main sections:

- 1. Quantitative data section:** A summary of RepRisk analytics and metrics that capture and highlight the areas of ESG risk exposure of the company, for both a two-year and a ten-year timeframe
- 2. Qualitative research section:** Details of all the individual ESG risk incidents (news) related to the company, since the launch of the ESG Risk Platform in January 2007

Company Reports are dynamically generated at the time of purchase to include the latest information from the RepRisk ESG Risk Platform – the world’s most comprehensive database on ESG risks.
