RepRisk recognized as meeting Gold Standard in ESG data

Deep Data Delivery Standards developed by industry experts certify high-quality ESG data

RepRisk, the leading provider of dynamic business intelligence on environmental, social, and governance (ESG) risks, is pleased to announce that it has been recognized as meeting the Gold Standard in Deep Data Delivery.

Developed by a team of investment professionals and academics from around the world, the Deep Data Delivery Standards were created as a public good that any asset manager or asset owner is permitted to use in contracting third-party data providers.

The first five Deep Data standards outline key characteristics of the data and related processes such as scope, identification, and machine readability, while standards six to ten help ensure the integrity of the data providers. The detailed criteria are further outlined here.

"RepRisk is very proud that its ESG risk data has qualified for the Gold Standard," states Alexandra Mihailescu Cichon, Head of Sales and Marketing at RepRisk. "For over 10 years, we have been committed to delivering high-quality, comprehensive, and dynamic data with a breadth and depth of coverage that is unique in the industry."

About RepRisk

RepRisk is a leading business intelligence provider, specializing in environmental, social, and governance (ESG) risk analytics and metrics.

Harnessing a proprietary, systematic framework that leverages cutting-edge technology and handson human intelligence in 15 languages, RepRisk curates and delivers dynamic risk information for an unlimited universe of companies.

Since 2006, RepRisk has built and continues to grow the world's most comprehensive ESG risk database, which serves as a due diligence, research, and monitoring tool in risk management, compliance, investment management, corporate benchmarking, and supplier risk. The RepRisk ESG Risk Platform currently includes risk profiles for over 75,000 listed and non-listed companies, 18,000 projects, as well as for every sector and country in the world.

Headquartered in Zurich, Switzerland, RepRisk serves clients worldwide including global banks, insurance providers, investment managers, and corporates, helping them to manage ESG and reputational risks in day-to-day business.

RepRisk provides the transparency needed to enable better, more informed decisions.
