

RepRisk for Banks

Your daily-updated ESG risk solution for lending

- Integrate ESG and business conduct risk assessments into your client onboarding and KYC processes across all business lines, from lending to IPOs and advisory to trade, export, and project finance
- Conduct pre-financing ESG due diligence and post-transaction monitoring on all business transactions
- Run periodic client reviews and assess overall client and project portfolio risk
- Ensure compliance with international standards including the UNGC, Equator Principles, SASB, and SDGs

Why RepRisk?

- **Focusing on the conduct of companies** as reported by 100,000+ public sources and measured by various ESG standards
- **Daily data updates** on 102 ESG factors with data history since 2007
- **Leveraging big data** via a powerful combination of AI and machine learning together with 150+ analysts in 23 languages for early risk detection
- **World's largest ESG coverage** of 205,000+ public and private companies across all sectors, and regions, including emerging and frontier markets
- **Coverage of facilities and projects** such as mines, pipelines, dams, ships, and ports

RepRisk is a pioneer in ESG data science with 15 years of experience helping leading financial institutions and corporates integrate ESG into their risk management processes across their operations, business relationships, and investments. It is the only ESG data provider that systematically covers private companies (185,000+), infrastructure projects (55,000+), and emerging and frontier markets.
