RepRisk Celebrates Its 10-Year Anniversary

RepRisk proud to announce 10 year milestone of environmental, social, and governance (ESG) business intelligence

RepRisk, the leading provider of dynamic business intelligence on environmental, social, and governance (ESG) risks, is excited to have reached its 10-year anniversary as a leading provider of ESG business intelligence.

Over the past 10 years, RepRisk has grown the world's most comprehensive database on ESG risks, delivering curated data on a daily basis. Some of the world's leading financial institutions and corporates rely on RepRisk as a due diligence, research, and monitoring tool in risk management, investment management, corporate sustainability, and supply chain management.

RepRisk started as an environmental risk consultancy firm in 1998. By 2006, in response to a request by UBS, RepRisk develops a proprietary, systematic framework to identify and assess companies exposed to ESG risks. The launch of the RepRisk ESG Risk Platform, for use as a due diligence tool in the financial sector, followed a year later. As of today, RepRisk adds to the work of the UNPRI, CDP, and SASB, as well as contributes to indexes such as the DJSI and FTSE4Good. Since 2015, RepRisk forms a strategic partnership with Institutional Shareholder Services (ISS) to serve asset managers and asset owners.

“RepRisk is proud to celebrate a decade of progress and innovation”, says Philipp Aeby, Chief Executive Officer at RepRisk. “We will continue our mission to empower our clients to achieve long-term success through transparency and risk management.”

About RepRisk

RepRisk is a leading business intelligence provider, specializing in environmental, social, and governance (ESG) risk analytics and metrics.

Harnessing a proprietary, systematic framework that leverages cutting-edge technology and hands-on human intelligence in 15 languages, RepRisk curates and delivers dynamic risk information for an unlimited universe of companies.

Since 2006, RepRisk has built and continues to grow the most comprehensive ESG risk database that serves as a due diligence, research, and monitoring tool in risk management, compliance, investment management, corporate benchmarking, and supplier risk. The database currently includes risk profiles for over 65,000 listed and non-listed companies, 17,000 projects, as well as for every sector and country in the world.

Headquartered in Zurich, Switzerland, RepRisk serves clients worldwide including global banks, insurance providers, investment managers, and corporates, helping them to manage ESG and reputational risks in day-to-day business.

RepRisk provides the transparency needed to enable better, more informed decisions.
