

Due Diligence Scores

Seamless access to **transparent, granular risk scores** for due diligence via the RepRisk Platform, Data Feeds, and API.

Make confident, defensible decisions

Built on over two decades of due diligence-grade data, DDS transforms real-world business conduct signals into clear and structured intelligence for confident decision making.

Screen investments, clients, and suppliers with clarity using:

- ✔ Individual environmental, social, governance, and cross-cutting pillars
- ✔ Daily updated scores (0–100) reflecting real-world corporate behavior
- ✔ Framework-aligned packages (e.g., SDGs, SFDR, SASB, LkSG, UNGC, OECD)

Why Due Diligence Scores?

Move beyond headline risk indicators to understand what is driving risk, where it matters, and how it evolved over time.

- ✔ 200+ underlying risk factors across environmental, social, governance, and cross-cutting themes
- ✔ Gain access to the underlying methodology for a clear understanding of the factors influencing a company's risk exposure
- ✔ Two decades of due diligence grade data, trusted by the world's leading banks, investment managers, fortune 500 companies, sovereign wealth funds, and organizations such as the OECD and UN

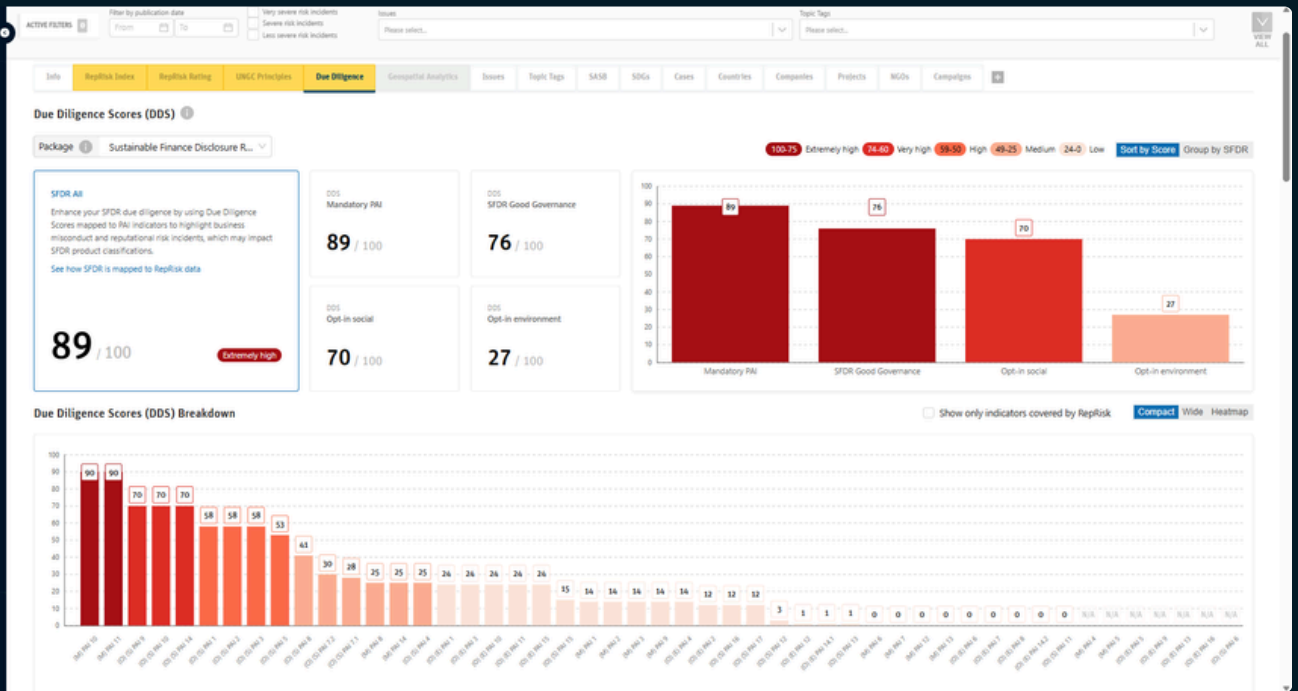

“ With RepRisk Due Diligence Scores, organizations of any size and scope can easily access granular risk metrics – **pinpointing risk where it matters most.** ”

Make faster, more informed decisions by integrating granular risk insights directly into your workflows

Asset managers:

Make confident and informed decisions with deep insight into the drivers of business conduct risk across your portfolios, supporting both performance and stewardship.

Corporates:

Monitor suppliers, partners, and third parties with risk insights that support supply chain due diligence, procurement controls, and evolving regulatory requirements.

Banks and insurance companies:

Strengthen KYC, underwriting, and enhanced due diligence processes with standardized risk signals aligned to internal sector policies, human rights standards, and sustainability frameworks.

Asset owners:

Confidently inform your oversight and engagement decisions with clear, evidence-based business conduct risk insight.

Choose the package that works for you

All Issues	Custom	Defense & security
German Supply Chain Act	Human rights	Modern Slavery Acts
Nature & biodiversity	OECD Guidelines	SASB
SGDs	SFDR	UNGC
