

## RepRisk attends SRI in the Rockies conference

US Sales Representative Robert Szigeti attended the SRI in the Rockies conference in San Antonio, Texas, from November, 18 – 21. The SRI in the Rockies is an annual gathering of investment professionals working to direct the flow of investments in a more positive, healthy and sustainable way. The conference was an excellent platform to meet and listen to passionate leaders from all corners of the sustainable and socially responsible investor community. One of the major topics discussed, particularly during the Jantzi Analytic presentation, was the methods of quantifying and measuring reputational risk and human rights abuse.
