

## RepRisk attends FISD Europe 2013

On February 2013, RepRisk was invited to attend the FISD Europe 2013 conference hosted at the BT head office in St.Paul's, London. The full day event was well attended by over 200 market and reference data professionals.

At the event, Senior participants representing three constituent groups: Data Vendors, Data Exchanges and Data Consumers, were invited to discuss growing needs for stronger internal and external governance as well standardization of data at length.

These key areas were highlighted to emphasize the growing needs for transparency in transactions and in general data handling, to meet the requirements of today's regulations such as Basel III, MiFID and the Dodd Frank Act. The UK financial regulatory body, the FSA, contributed to the topic as well.

Sessions were attended throughout the day by RepRisk Channel and Financial Data Provider Manager – Peter Ing, to meet and share insights into ESG data with members of the prestigious data community.
