

RepRisk announces addition of Dutch language – bringing its research coverage to 15 languages

Through Partnership with Leading Consultancy Steward Redqueen, RepRisk Now Covers 15 Languages in its Environmental, Social and Governance (ESG) Research

FOR IMMEDIATE RELEASE

Zurich, Switzerland and Haarlem, The Netherlands – April 15, 2015 – RepRisk, a specialized data provider on environmental, social and governance (ESG) risks, is pleased to announce that it is adding the Dutch language to its comprehensive research process – thereby bringing its coverage to a total of 15 languages. This development is possible through a partnership with Steward Redqueen, a leading sustainability consultancy based in The Netherlands and serving clients around the world.

The RepRisk ESG Risk Platform captures and analyzes risk incidents related to companies, projects, sectors and countries and is used as a risk analysis, monitoring and due diligence tool by financial and corporate clients around the world. RepRisk's Platform currently contains data on over 50,000 companies and 12,000 projects – and is updated and growing daily.

Wouter Scheepens, Partner at Steward Redqueen, says, “We are very pleased to be working with RepRisk, as we are like-minded organizations that offer complementary ESG propositions. In view of the growth of international ESG markets we trust that this partnership has the potential to generate additional synergies.”

“We are happy to be working with Steward Redqueen, an organization which shares our mission to support sustainability in business and make a positive contribution to society – and we are excited to add the Dutch language to our research coverage,” highlights Nicole Streuli-Fuerst, Head of Operations and Research at RepRisk. “Broad language coverage is important to RepRisk because our experience shows that risks appear at the local level, in local languages, first.”

About RepRisk:

RepRisk is a leading business intelligence provider specializing in dynamic environmental, social and governance (ESG) risk analytics and metrics.

Daily, RepRisk systematically screens big data from a broad range of open intelligence sources in 15 languages in order to identify, filter, analyze and quantify ESG risks (such as environmental degradation, human rights abuses and corruption) related to companies, projects, sectors and countries. This external perspective provides valuable insight on whether a company's policies, processes and commitments are consistently translating into performance.

Since 2006, RepRisk has built and continues to grow the most comprehensive ESG risk database that serves as a due diligence tool and early warning system in risk management, compliance, investment management, corporate benchmarking and supplier risk. The database currently includes risk profiles for over 50,000 public and private companies and 12,000 projects as well as for every sector and country in the world.

Headquartered in Zurich, Switzerland, RepRisk serves clients worldwide including global banks, insurance companies, investment managers, and corporates, helping them to manage and mitigate ESG and reputational risks in day-to-day business.

RepRisk provides the transparency needed to enable better, more informed decisions. For more information, please visit www.reprisk.com or follow us on [Twitter](#).

About Steward Redqueen:

Making business work for society.

Steward Redqueen is a specialized consultancy that works across the globe advising organizations on impact and sustainability.

Our clients are multinationals active in various sectors, large companies with regional activity, governments, financial institutions (e.g. commercial banks, development banks, microfinance institutions) and industry associations.

We help them to strengthen their business performance and improve their bond with the societies in which they operate. We do this by providing insight into issues and risks arising from the challenging interface of business and society, but also by identifying the business opportunities involved. We also assist them to implement their ESG strategies effectively.

Steward Redqueen has an office in Haarlem, The Netherlands and is represented in Barcelona (Spain) and New York (USA). For more information, please visit: www.stewardredqueen.com.
