Zurich-based environmental, social and governance (ESG) risk data vendor RepRisk has partnered with US-based corporate governance and proxy voting solutions provider Institutional Shareholder Services (ISS) to provide access to RepRisk's research, data and analytics to its clients.

[ISS](#)' clients, which include asset owners, investment managers, hedge funds, broker-dealers, and custodian banks, will now have access to [RepRisk](#)'s, datafeed, asset management platform and monitoring report offerings.

Through RepRisk's platform, ISS clients will be able to manage reputational, compliance, and investment risks related to [ESG](#) issues, and monitor the activities of portfolio companies for the purposes of investment analysis, engagement, or exclusion.

Customizable datafeeds can also be integrated into existing databases and processes to flag and monitor ESG risks in a portfolio.

"As a growing number of institutions globally sharpen their focus on non-financial risks, our clients will benefit greatly from access to RepRisk's research, data, and analytics," says ISS chief revenue officer Stephen Harvey, in a statement. "RepRisk offerings will assist ISS clients in selecting the best performing portfolio constituents for their beneficiaries, and facilitate compliance with UN PRI and other ESG investing stewardship guidance now gaining traction with investors."
