By [Rebecca Parker](#) | June 18, 2019

Reputational risk, often called reputation risk, is a risk of loss resulting from damages to a firm's reputation, in lost revenue; increased operating, capital or regulatory costs; or destruction of shareholder value, consequent to an adverse or potentially criminal event even if the company is not found guilty. Adverse events typically associated with reputation risk include ethics, safety, security, sustainability, quality, and innovation. Reputational risk can be a matter of corporate trust.

This report on the Global Reputational Risk Management Advisory Market is a detailed research study that will help to provide answers and related questions related to the industry's new trends and growth opportunities.
