

RepRisk listed in Apparel Data Directory by the International Corporate Accountability Roundtable

March 2017

RepRisk is pleased to be listed in the directory as one of the organizations that are generating public information related to labor rights in the apparel industry. According to the International Corporate Accountability Roundtable (ICAR), the aim is to provide a map of available data on labor rights in the apparel industry that would facilitate collaboration, identify gaps in available information, and ensure that the data being produced is useful for policy advocacy organizations.
