

Product Factsheet Company Report

RepRisk Company Reports provide an in-depth look at the environmental, social, and governance (ESG) risk exposure of an individual company through a combination of quantitative data – our proprietary risk analytics and metrics – and qualitative research that covers ten years of history.

A historical view of the ESG risk exposure

RepRisk Company Reports are designed for users specifically interested in one or a few companies:

- CSR and Sustainability teams
- Communications and PR professionals
- Financial and M&A advisors
- Individual investors
- Law firms
- Management consultants
- Academics and students
- NGOs

- **Address the business imperative of ESG:** Provides an in-depth ESG risk assessment, helping you identify the Issues, Topics, UNGC Principles, Cases, and more, that drive risk for a company
- **See the big picture:** Delivers historical insight through a ten-year data history, while also highlighting the key areas of risk exposure from the last two years
- **Have timely, actionable intelligence at your fingertips:** Dynamically generated upon purchase to include the latest information from our ESG Risk Platform – the world’s most comprehensive database on ESG risks

You can order Company Reports, delivered in a convenient PDF format via email reports@reprisk.com.

RepRisk analytics help you identify the key ESG challenges and hot spots for a company

This RepRisk Company Report is a compilation of all the RepRisk research and analytics available for an individual company. Each Company Report includes two main sections:

- 1. Quantitative data section:** A summary of RepRisk analytics and metrics that capture and highlight the areas of ESG risk exposure of the company, for both a two-year and a ten-year timeframe
- 2. Qualitative research section:** Details of all the individual ESG risk incidents (news) related to the company, since the launch of the ESG Risk Platform in January 2007

Company Reports are dynamically generated at the time of purchase to include the latest information from the RepRisk ESG Risk Platform – the world’s most comprehensive database on ESG risks.

The ESG Issues associated with a company in the last two and ten years

Environmental Environmental Footprint	Social Community Relations	Employee Relations	Governance Corporate Governance
Global pollution (Incl. Climate change and GHG emissions)	Human rights abuses, corporate complicity	Forced labor	Corruption, bribery, extortion, money laundering
Local pollution	Impacts on communities	Child labor	Executive compensation
Impacts on ecosystems and landscapes	Local participation issues	Freedom of association and collective bargaining	Misleading communication, e.g. "greenwashing"
Overuse and wasting of resources	Social discrimination	Discrimination in employment	Fraud
Waste issues		Health and safety issues	Tax evasion
Animal mistreatment		Poor employment conditions	Tax optimization
			Anti-competitive practices

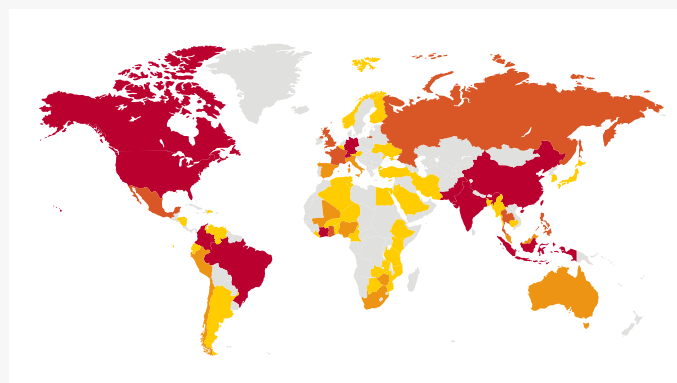

Cross-cutting Issues: always in combination with one of the ESG Issues above

Controversial products and services
Products (health and environmental issues)
Violation of international standards
Violation of national legislation
Supply chain (E, S, G issues)
